«Samruk-Kazyna Trust»
Social Development Foundation
in the Media Field

This is the public non-financial report that highlights «Samruk-Kazyna Trust» Social Development Foundation approaches to implementation of corporate social responsibility and its contribution to solving socially important issues from the entire «Samruk-Kazyna» JSC group of companies.

«Samruk-Kazyna Trust» Social Development Foundation considers highly important to provide full information about its charitable activities to all stakeholders on a regular base and receive feedback on the report.

The report is published in Kazakh, Russian and English in hard and soft copies.

Message of the CEO of «SAMRUK-KAZYNA» JSC

AKHMETZHAN YESSIMOV

Dear colleagues and partners!

«Samruk-Kazyna» JSC plays a significant role in economic development of our country. Today, the group of companies unites more than 300 enterprises throughout Kazakhstan, which employ more than 300,000 people. Each of them contributes to well-being and stability of the country. People have always been and remain the most valuable resource, so we strive to create all the opportunities for their comfortable life.

Thanks to their tireless work, in 2019 the net income of «Samruk-Kazyna» JSC group of companies was 1,243 billion tenge, which is 36.7% more than the target figure. Moreover, revenues to the Republic budget from the group of companies of the Fund amounted to about 1.1 trillion tenge.

At the same time, we are well aware that modern business cannot be successful without fulfilling its social obligations. We always strive to go along with the modern challenges which require business to be progressive as well as socially responsible.

Corporate responsibility is not just responsibility of a company to people and organizations with whom it interacts doing business. This is the entire philosophy, which, in our opinion, that should be followed by companies thinking about their development and development of society as a whole.

«Samruk-Kazyna» JSC takes care of well-being of the population. For this purpose, «Samruk-Kazyna Trust» Social Development Foundation as the sole operator of charitable activities has been established.

In 2020, we crossed a ten-year mark in our charitable activities. During this time, we have gained extensive experience in implementing socially significant projects, launched hundreds of projects, improved the approach to their implementation, provided assistance to hundreds of thousands of people.

Today, «Samruk-Kazyna Trust» is one of the charity leaders of charity in Kazakhstan and is the largest charity fund. We stand for reasonable investments and invest in regional development. We look towards development of cooperation between business, non-profit and state sectors as together problems can be solved quickly and efficiently.

Indeed, in 2019, memorandums of cooperation in the social sphere were signed with the Ministry of Labour and Social Protection of the Population of the Republic of Kazakhstan, as well as with Akimats of Nur-Sultan, Almaty cities and Turkestan region.

This year, the Fund is going to continue to implement charity projects, particularly in the field of health care, healthy lifestyles, medicine, education and its high-quality implementation will be possible due to unity and commitment to top results.

Message of the Chairperson of the Board of Trustees of
«SAMRUK-KAZYNA TRUST» Social Development Foundation

ALISHER PIRMETOV

Dear colleagues and partners!

Analyzing the results of 2019, I would like to say that it was a fascinating year, full of outstanding projects.

Today, all big businesses focus on social responsibility. In the modern world, it is difficult to imagine a company that would ignore importance of social responsibility, because there is understanding that business simply cannot progress without developed infrastructure and prosperous citizens.

This insight has become one of the main work principle of «Samruk-Kazyna» JSC and its charity operator, «Samruk-Kazyna Trust» Social Development Foundation, which has been developing social projects for 10 years.

Based on our lessons learned, we made conclusions about how to improve a support system for the population, completely revised our approach to charity, integrated the principles of sustainable development and corporate social responsibility into charity projects. We emphasized systematicity because we know only such projects can lead to real solution to the problem.

From year to year, this allows to increase the total number of direct beneficiaries and cover interests of a large number of people. In 2019, the number of beneficiaries increased by 40,000 and amounted to 392,000. I believe that this is good assessment of quality and impact of the projects implemented by the Foundation.

In order to ensure timely and effective implementation of projects, we have developed such documents as the Charity Policy and the Charity Programme of «Samruk-Kazyna» JSC, as well as «Samruk-Kazyna Trust» Rules for providing and monitoring of charity funds, which are being strictly applied. These documents are guarantee of

transparent work of the Foundation and its partners.

I should note that we are open to new interesting projects, especially if they can bring positive changes into lives of Kazakhstani people. I am confident that in cooperation with non-profit organizations, we will be able to do more good projects. It is important to have a great desire to contribute to development of the society and create the most comfortable conditions for people.

During the review process the Board of Trustees always pays attention to effectiveness of projects. Quality of the projects is of great importance for us besides their quantity.

It is due to high quality implementation, many projects have become widely recognizable in the country. For example, residents of remote stations are eagerly awaiting the arrival of medical trains, children in different cities and villages spend their leisure time on the sports courts constructed by «Samruk-Kazyna Trust», and our contribution to the development of social entrepreneurship is recognized at the state level.

«Menin Elim» Social Investment Programme is still of great priority, thanks to which the necessary infrastructure is being developed in the regions of the country, and projects are being carried out in the field of healthcare, culture, education, and sports. The work of the Foundation is going on, we face even more ambitious challenges that have to be solved and «Samruk-Kazyna Trust» Foundation will make every effort to help people cope with them.

Message of the Director General of «SAMRUK-KAZYNA TRUST» Social Development Foundation

DIYAS AZBERGENOV

Dear friends!

We would like to present to you the Report of «Samruk-Kazyna Trust» Social Development Foundation's work in charity and social investments for 2019.

«Samruk-Kazyna Trust» Social Development Foundation has been working in charity for 10 years. Our goal is to improve quality of Kazakhstan people's lives through implementation of socially important projects.

We establish partnerships with non-profit organizations in various areas, including support to people in the Social and Medical Sectors, Human Development and continue implementation of the «Menin Elim» Social Investment Programme.

We try to keep our work up-to-date with modern challenges and therefore constantly improve and optimize our business processes. It allowed us to provide necessary support to as many people as possible in our social projects.

For example, a parent of a child with cerebral palsy needs a lot of money to treat a child abroad, including a rehabilitation course, travel, accommodation and food costs. And the child needs to take this course on a regular base. We understand that it is impossible to provide such one-time support to each child. In order to provide such kind of support in Kazakhstan, «Samruk-Kazyna Trust» in cooperation with «Kasietti Zhol» Charitable Foundation opened Rehabilitation Centers in Kazakhstan, two of them operate in Nur-Sultan city, and one - in Shymkent city.

This year, the Foundation's model of the rehabilitation center will be scaled up throughout the country. As a result, there will be 8 more rehabilitation centers in the

following regions of Kazakhstan: Zhambyl, Turkestan, East Kazakhstan, Kostanay, West Kazakhstan, Atyrau, Almaty regions and one more in Nur-Sultan city. It will allow to provide access to a bigger number of children to rehabilitation and treatment services.

Altogether, we implemented 39 socially important projects last year that provided support to 392,000 Kazakhstanis. You can find more details about the projects of the Foundation from this Report.

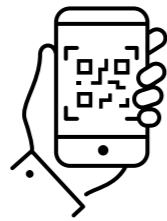

I would like to share with you some other interesting projects. So, in 2019, we held the first meetup for non-profit organizations «Poster of Good Deeds», which focused on fundraising and promoting social projects on the Internet. A well-known Russian expert in fundraising - Olesya Radilova and Kazakhstani blogger and media trainer Yakov Fedorov spoke at the meetup. The meetup gathered more than 60 representatives of non-profit organizations of the Nur-Sultan city.

Another highlight was the #ItsAboutAbility global campaign, which was launched in Kazakhstan together with UNICEF. This campaign is aimed at protection the rights of children with special needs and developing an inclusive society.

I should note that the projects of the Foundation are being implemented thanks to support of our partners - international foundations, government agencies and regional state authorities, administrators represented by non-profit organizations, and the media. I would like to thank everyone for support in achieving our ideas and changing lives of Kazakhstanis for the better. Our cooperation makes our joint work successful and makes each project special!

Rozaliya Rakhimova, a young mother, a head of the **«Rozaliya and Emir» Private Fund** in Kyzylorda. Before the birth of her son, Emir, Rozaliya knew absolutely nothing about the diagnosis of «Autistic Spectrum Disorder» or, more commonly, autism. However, doctors revealed autism in Emir, and this changed the regular habits of the family dramatically. And then endless search for information, clinics, and doctors who could help her son began.

Rozaliya admits that after years of wandering, thousands of kilometers of roads, they still could not find the «miracle cure». Then the young mother decided to open her own center, which will provide quality services of qualified specialists to children, the same as her Emir.

The participation and victory of the **«Rozalia and Emir» Private Fund** in the **«ƏREKET» project**, whose main goal was the development of social entrepreneurship, helped. Rozaliya Rakhimova received a grant, purchased the necessary equipment and trained the center's specialists. After a short period of time, the Autism and Speech Correction Center opened its doors in Kyzylorda.

Currently, certified specialists work in the Center: speech therapists, speech pathologists, psychologists, physical therapy specialists, AVA therapists. The teaching staff of the Center conducts corrective, developmental, educational work with children to prepare them for everyday life. Classes are held in several classrooms, where there is all the necessary didactic, pedagogical and sports equipment.

Gulmira Parmysheva, head of the **«Belsen Center for Social Initiatives» PA**, having personally encountered a number of problems during the correction and recovery of her own child, decided to create a non-profit organization and launch speech therapy kits for parents who work with children independently.

In 2018, this organization developed and launched the first «Kishkentai» speech therapy kits, which help to develop speech breathing and fine motor skills of children. The production of kits was launched in Almaty and is unique in Kazakhstan.

After testing the kits and studying the needs of their target audience, the project initiators realized that it was necessary to refine the content and quality of the kits. At the same time, it was understood that the production process would be more efficient if a number of training devices were manufactured all alone.

The **«ƏREKET» project** helped Gulmira and her partner Aigul Mustafina. Thanks to the grant received in the Project, they acquired materials and the necessary equipment, as well as underwent training and received mentor support, which allowed expanding the range of training devices and improving their quality.

«Kishkentai» speech therapy kits are 8 times cheaper than their foreign counterparts. For the manufacture of products, certified and hypoallergenic raw materials from the USA, Europe and Russia are used. The kits are tested on an ongoing basis by practicing speech therapists and speech pathologists in Almaty and Nur-Sultan.

In addition to the main social idea of the «Kishkentai» project, the Association directs 10% of the profits from the sale of kits to support children with special needs.

In 2017, in the city of Rudny, the **«Rudny City Voluntary Society of Disabled People» PA** decided to create a Car Service Station. Its uniqueness was that people with disabilities were hired. It is well known how difficult it is for people with special needs to get a job and earn money.

The Public Association carried out the arrangement of service stations and workplaces for employees using wheelchairs at its own expense. When the work was fairly adjusted, they came up with the idea to employ even more people with disabilities.

Fortunately, in 2019, the head of the association, Sanash Yeshchanov, applied for participation in the **«ƏREKET» project**. An application from the Rudny City Voluntary Society for Disabled People passed a selection of 290 applications and won a grant among 25 project winners.

With the grant funds, equipment was purchased and the capacity of the service station was increased. To ensure its financial stability, the Association provides car repair services, and in addition, the premises of the station are leased to car owners for only 500 tenge per hour.

The main task for Sanash Yeshchanov is not the opportunity to earn, but the employment of members of a public association and their social integration into society.

Thanks to the **«ƏREKET» project**, 8 people from among people with special needs were able to get a job.

In 2018, the head of the **«ECO Atameken» PA** Gulnara Niyazova opened a small greenhouse for growing oyster mushrooms in the town of Kentau, southern Kazakhstan.

A year later, it was decided to expand the scope of the social enterprise. It was necessary to purchase the required equipment and raw materials. She also planned to employ people with special needs. Having heard about the **«ƏREKET» project**, Gulnara filed an application on behalf of the Association, went through all the stages and won a grant.

Having received a grant, Gulnara Niyazova, together with her son Raintan Zhaparov, who helps her in the greenhouse and takes care of the oyster mushrooms himself, proceeded to equip the premises, purchased additional raw materials and hired two assistants - Adlet and Vladimir. Both of them have a disability: Adlet has a developmental speech delay and hearing disorders, and Vladimir has a hearing and vision impairment. But this does not stop them from growing mushrooms. Raintan taught them all the necessary skills, and, by the way, mastered sign language a little to make it easier for children to understand and explain the most necessary things. Nevertheless, Adlet's mother, Balzhan, helps Raintan in sign language interpretation.

By virtue of the well-coordinated work of this small staff members, 30 kg of the crop was harvested within 3 months. The Public Association sells its products to local restaurants and residents. It is the sale of mushrooms that ensures the financial stability of the Association. Also, when selling every 100 kg of oyster mushrooms, 3 kg of these mushrooms are sent free to the canteen of the Special Professional College in Kentau, where young people with special needs are trained.

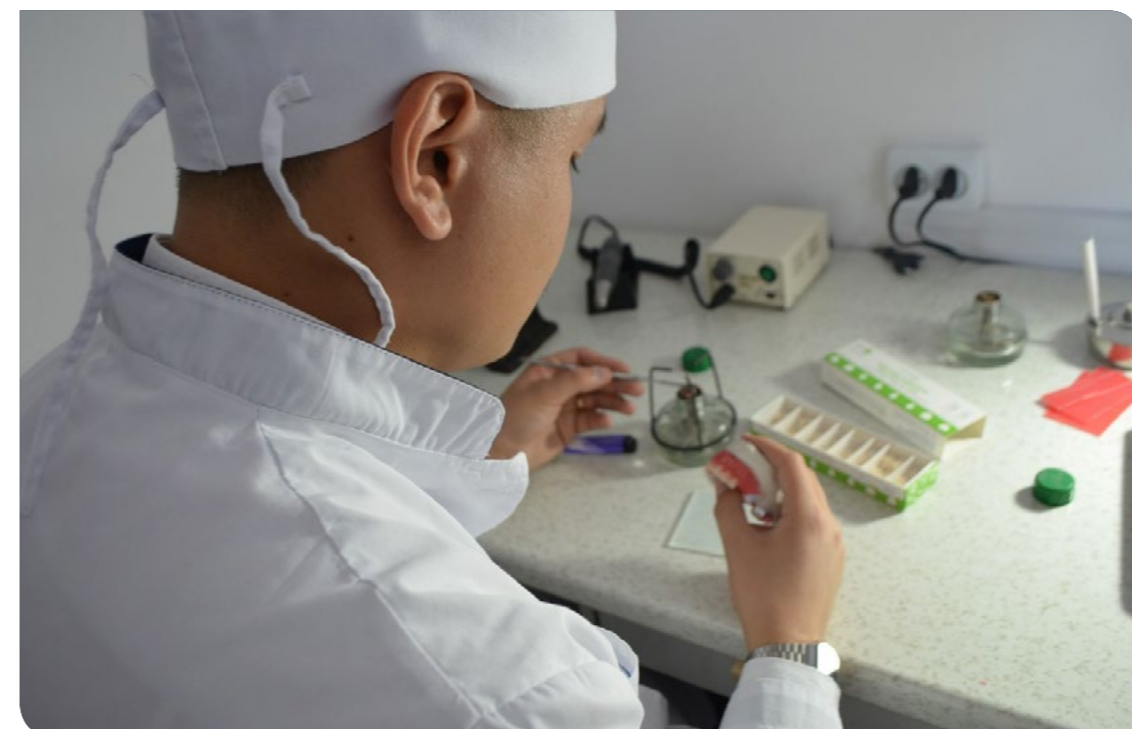

«The **«ƏREKET» project** helped us a lot, and first of all I gained a lot of new knowledge in financial management and marketing. I answered many questions that I had in the beginning. And I would like to make acknowledgment to «Samruk-Kazyyna Trust» Foundation, you gave me the opportunity to implement this project», - said Raintan Zhaparov.

«In 2018, for the first time in Taldykorgan, the major «Orthopedist» was opened for students with hearing impairment. Working with this target group, our team understood what difficulties in employment may be experienced by people with such health problems. Thus how the idea of opening a Dental Orthopedics Room came from, where students of the Taldykorgan Higher Medical College will work» - says Raushan Bexultanova, Head of the **«Bolashak Corporate Fund of the Kazakh Society of the Deaf» PA.**

Having learned about the **«ӘРЕКЕТ» project** through the local Internal Policy Department, the Association decided to implement its idea and open a Dentist's room on social entrepreneurship. Participation in the project provided the Association not only financial support, but also non-financial one, that is training, mentoring and support in launching and implementing the idea within 9 months. Kazakh Society of the Deaf Public Association established a Dentist's room on the basis of a medical college and employed 6 people with hearing impairment. The room provides services for the manufacture of prostheses, crowns and other dental products on a profit-making basis, supplying them to both local dental clinics and individuals.

The Association's sign language interpreter helps dentists with consumer communication. The financial stability of the project is ensured by the receipt of funds from the provision of paid services. As a result of the project, young people were able to gain financial independence and improve social integration in society.

by organizing charity and fund raising events in the amount of **18,000,000 KZT**

516 VETERANS were able to use rail transport in Kazakhstan and the CIS for free.

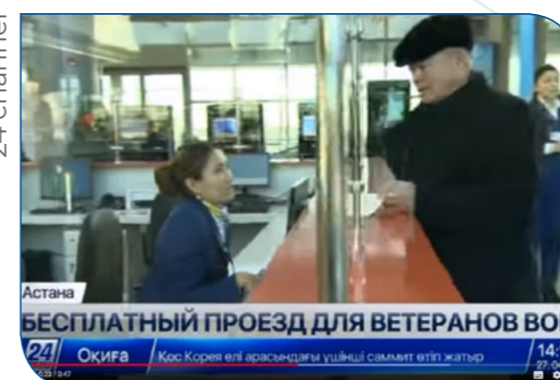

«The project was launched in 2015, in the year of celebrating the 70th anniversary of the Victory in the Great Patriotic War, and is still being actively implemented. Our volunteers visit veterans and homefront workers every month, achieving several goals. First of all, provision of real support to veterans through nationwide charitable donations».

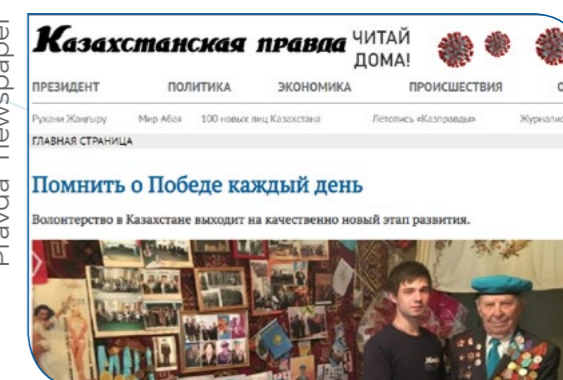

TATYANA MIRONYUK
Executive Director NVN ALE

News cover on the Khabar 24 channel

Article in the "Kazakhstanskaya Pravda" newspaper

Printed according to the «Zhenis» Project's volunteer Amirzhan Skakov.

Participation in the «Zhenis» project turned my life around. I can no longer be indifferent to those who need help, especially it it's the aged people. Now I am always ready to take part, and I know exactly why this is important.

We come to visit our veterans and bring food and help with the housework, and don't want to leave, even when everything is done. Sometimes we sit for a long time and cannot break away listening to interesting stories about their youth and life, about the war, about how it feels to attain the age of 100 and see so much!

Many meetings will probably be remembered for a lifetime. I remember how pity it was for one grandfather having a very old hearing aid. The device often squealed loudly, disturbed the old man, who was very hard at his age. He was not angry because of this, and turned out to be very kind and hospitable. Today you rarely meet a person who can sincerely enjoy life in such conditions.

It also turned out that he likes to be photographed and before leaving we happily took a few pictures together. A smile never left the veteran's face, and this was the biggest reward for us!

Another elderly woman turned out to be a real comedian, she joked a lot and made us laugh. And when we were going to take pictures, it turned out that she was also a woman of fashion, in her youth she was even a model. She put on a beautiful dress and a wig to take a picture with us.

We were full of enthusiasm and joy each raid. A meeting with veterans returns to childhood as if you were once again in the warm embrace of your grandparents. Their words of encouragement, parting words, blessings, their quiet and gentle «Thank you, my grandchids» gives a lot of strength and inspiration ...

42 employees and teachers of Resource Centers implementing the inclusive education practice from the cities of Nur-Sultan, Almaty, Aktobe, Aktau, Kokshetau, Pavlodar, Petropavlovsk, Ust-Kamenogorsk, Taraz, Shymkent and Akmola region attended a special training seminar.

APRIL

100 employees of special educational institutions of the East Kazakhstan and Pavlodar regions participated in the seminars «Organization of correctional and development work for children with special educational needs under the Psychological and Pedagogical Correction Centers».

Participants attended open classes, received advice on working with «special» children, got acquainted with the work of specialists, and examined the equipment of the PPCC.

NOVEMBER

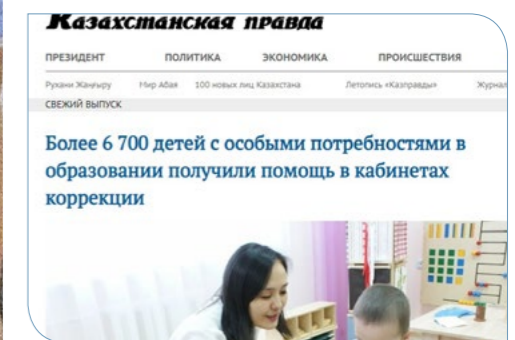

Nazarbayev University experts examined the work of the Resource Centers using the «case study» method - as a result developed methodological recommendations.

SAULE BEXULTANOVA

«Dara» PF Project Manager

Denis
Yakovlev

The Psychological and Pedagogical Correction Center of the city of Semey has been working for more than a year. «Special children» learn the basics of education here. All the children have noticeable improvements thanks to the PPCC specialists.

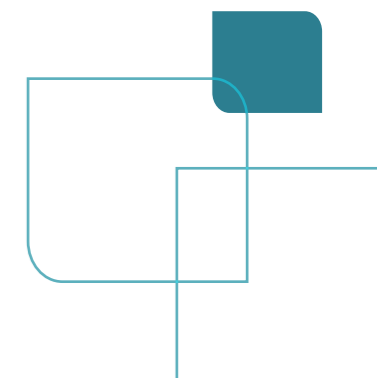

Opening a center was of great importance for five-year-old Denis and his family. The boy visits the Center from the very opening. Supervisors note that at the initial stage Denis was emotionally unstable, whiny and inhibited. He was able to understand speech, but could not speak. He did not know figures, colors, shapes and sizes.

The Psychological and Medical Commission revealed a diagnosis – delayed mental development, general speech underdevelopment. In addition, Denis has poor eyesight, astigmatism.

Step by step, as part of classes, Denis began to speak first by syllables, then by phrases, and now he is trying to speak with whole sentences, he can count, generalize objects, and even read by syllables.

He cheerfully talks about himself and his family and confidently answers questions. For Denis's relatives, this is big progress, which they cannot get enough of. It would seem that so little time has passed, but only the Correction Center specialists know how much work has been done for Denis' first words. Very soon Denis will go to a comprehensive school and will study together with ordinary children. Just a while ago his parents could not have imagined that the child would be able to show such results and even apply for education in a secondary school.

Denis's grandmother gratefully praises about the Psychological and Pedagogical Correction Center and its specialists and says that they laid the foundation for the bright future of her beloved grandson.

HEALTHY CHILDREN

«Kasietti Zhol» PCF

Project Geography: Nur-Sultan, Shymkent

Target audience: children with cerebral palsy (CP) aged from 0 to 15 years

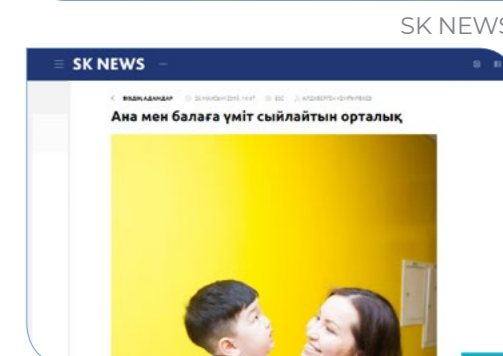

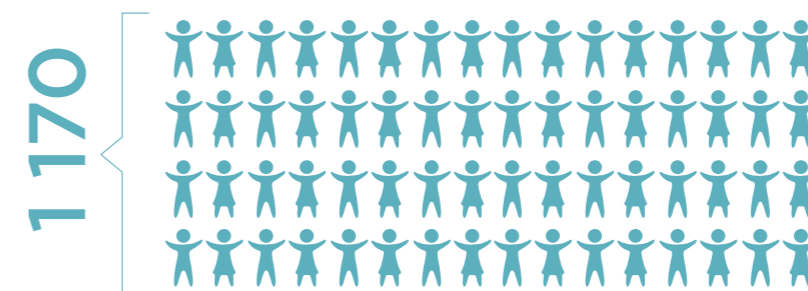

Orphans, children without parental support, children from a single-parent family, low income and multi-children families with a diagnosis of CP and other muscle-skeleton disorders undergo free rehabilitation courses in the Rehabilitation Centers «Kasietti Zhol», «KZhol Shymkent» and the «Balapan» Early Intervention Center.

IN 2019, 1,170 CHILDREN HAVE PASSED 21-DAY REHABILITATION COURSES AT THREE CENTERS OF THE CITIES OF NUR-SULTAN AND SHYMKENT

SKILLS OF CHILDREN AFTER REHABILITATION:

- 82 CHILDREN LEARNED TO POISE THEIR HEAD INDEPENDENTLY;
- 60 CHILDREN LEARNED TO GRAB WITH HANDS;
- 124 CHILDREN LEARNED TO SIT BY THEMSELVES;
- 64 CHILDREN LEARNED TO WALK WITHOUT BEING ACCOMPANIED;
- 99 CHILDREN LEARNED TO PRONOUNCE WORDS;
- 100 CHILDREN LEARNED TO STAND ON ALL FOURS.

**Abdulkhamid
Yestayuly**

At the closing ceremony of the 8th check-in to the Early Intervention Center traditionally there was held the «tusaukeser» rite for children, who made their first steps here. One of them is Abdulkhamid Yestayuly, who is a year and eight months old.

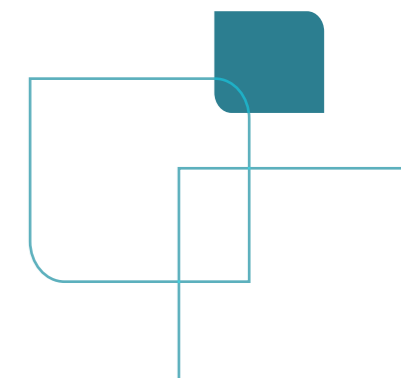

Abu, as his close people call him, was born premature and weighed 1.1 kg.

«Our only wish was for our boy to stand up on his feet», - the boy's mother Ainur recalls that tough time.

For the first 2 months of his life, Abu and his mother stayed in Perinatal Center No.2. And when they left the hospital – tried to go outside as seldom as possible – relatives tried to protect the child this way. It lasted until Abdulkhamid's first birthday. Doctors said that it was time to accustom the boy to the environment and sent him to the «Balapan» Center.

Having examined the child, center specialists claimed that he had weak bones and a spine musculature and first of all registered him for physical therapy sessions. It's hard to believe, but the boy made his first steps 10 days after the first session!

«I would like to thank a team of the «Balapan» Early Intervention Center, which always greets us with a warm smile and care. Now Abdulkhamid doesn't just walk, he runs, singing songs. We couldn't even imagine that it was possible. And we have achieved that result thanks to professionals of the Center», - Ainur says.

SALAMATTY BOLASHAK

«World of Equal Opportunities» Society of Parents of Children with Disabilities» Public Association

Project Geography: Nur-Sultan

Target audience: children with special needs

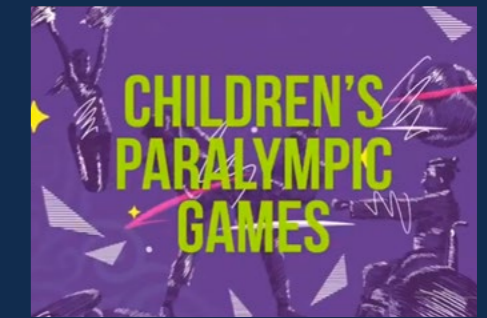

Within the framework of the project, the first Kazakhstani training manual on adaptive physical education and adaptive sports programs for children with special educational needs was developed. The manual was tested and distributed among physical-education teachers and trainers during the I International Scientific and Practical Conference on Adaptive Physical Culture, organized as part of the project.

Experts from L.N. Gumilyov ENU were involved in the development of the training manual. In addition to the manual, an electronic application for the manual and physical education and sports programs have also been developed :

1. On swimming for children with MSDs;
2. On swimming for children with visual impairments;
3. On Boccia for children with MSDs;
4. On goalball for children with visual impairment;
5. An inclusive program for adaptive corrective dance gymnastics (choreography) for children with special educational needs and children without developmental disabilities;
6. An inclusive adaptive karate program for children with special educational needs and children without developmental disabilities.

The first International Children's Paralympic Games in Kazakhstan

THE INTERNATIONAL CHILDREN'S PARALYMPIC GAMES WAS HELD FOR THE FIRST TIME IN KAZAKHSTAN

11 GROUPS FOR CHILDREN BY 6 TYPES OF SPORTS ARRANGED

TRAINING ARE HELD TWICE A WEEK

TOTAL NUMBER OF CHILDEN ATTENDING - 150

Children from low-income families are admitted to the group free of charge.

01

The developed teaching guide was introduced as educational literature in the framework of the «Adaptive Physical Culture and Sports» elective course of the Kazakh Academy of Sports and Tourism for the Kazakh and Russian Departments;

02

322 participants took part in the I International Scientific and Practical Conference «Adaptive Physical Culture and Sports: Current Status and Development Potentials». The conference was attended by international speakers, listeners from 11 regions of Kazakhstan. Participants prepared 51 scientific articles;

03

In the framework of the educational program “Physical Culture and Sports” at the L.N. Gumilyov ENU, the discipline “Adaptive Physical Culture and Sports” was founded and the developed teaching guide was introduced;

04

Cooperation agreements were concluded with the social partners of the project - «Zamandas 21» PF, the National Paralympic Committee of the Republic of Kazakhstan, the Schoolchildren’s Palace named after M. Utemisuly, Schoolchildren’s Palace of the Akimat of the city of Nur-Sultan, «Flamingo» Fitness Club, «SpaceFitness» Fitness club.

Article in ELDORA info

Adil
Mukhametkaliyev

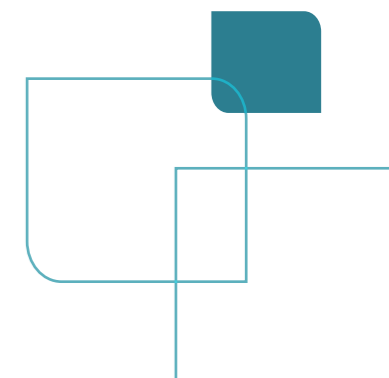

Adil is the eldest child in a large the Mukhambetkaliyevs family, who weren't able to afford sections and classes of their son because of financial difficulties. When 4 years ago they had found out about «Zamandas 21» family neighborhood club, which allowed to study in different sections and classes, they decided to bring 10-year-old Adil there. At that time he was a shy and quiet boy.

In the first years, Adil attended many classes looking for a hobby that he would have loved. He played dombra and chess, he studied speech development and English language, karate, unarmed combat and even dance.

Each class has left an imprint on the development of our young character's nature. During four years the kid unleashed his creative potential, became physically stronger and learned how to achieve his goals. He keeps developing his dombra playing skills and practicing unarmed combat, he also takes part in debates.

14-year old Adil supports his parents, he helps his family as much as he can and even learns to earn money: Adil and his friend perform at events and get paid for that. Adil has found many friends in the club and considers «Zamandas 21» his second home. His main goal is to finish school well, enter the university, become a demanded professional and get a promising job. The young man is confident and makes his best to achieve his goals. Today Adil is a winner of international contests and a prizewinner of many competitions.

«My son has good grammar, he is good with people, he can easily become the soul of the company. During these years leadership qualities and organizational skills have appeared in him. All is due to the coordinative work of the «Zamandas 21» team, teachers of which can find an approach to every child and unleash all sides», - Adil's mother Botagoz notes.

IN 2019, TWO MEDICAL TRAINS «DENSAULYK» AND «ZHARDEM» HELPED RESIDENTS OF 273 STATIONS AND WAYSIDE CROSSES

«At the end of April 2019, the Social Projects Fund at «Kazakhstan Temir Zholy» NC JSC, together with the «Samruk-Kazyna Trust» Social Development Foundation, launched the «Densaulyk» medical train. In August, another specialized medical train «Zhardem» was initialized. Medical trains in Almaty, East Kazakhstan, Pavlodar, North Kazakhstan, Akmola, Kostanay, Karaganda, West Kazakhstan, Aktobe, Atyrau, Mangistau, Kyzylorda, Turkestan and

Zhambyl regions provided primary health care and consultative and diagnostic assistance for residents of remote stations and nearby villages of the country who do not have access to medical care. Our trains are very popular among residents of distant stations, because highly specialized doctors work in the medical teams, who are difficult to get to in a regular hospital because of queues, but there are simply no such specialists in remote stations. Each medical train consists of 8 cars, which are equipped as medical rooms and with the best medical equipment necessary for a diagnostic examination and primary medical care. The Medical Trains project has been implemented since 2010 and has become an annual expected event for residents of remote stations, since contacting medical train specialists is the only way to identify serious diseases for people from remote regions.

YERBOL KENGERBAYEV,
Director of KTZh NC JSC Social Projects Fund

Timely medical help is very important, especially when it refers to severe traumas when every second matters. It was a common day, it seemed like nothing could go wrong. Yelena Akhmetova let her son Miras play out with his friends and was doing her own work when she received a call and was told that her son fell off the motorbike. Within minutes mother reached the place of the crash. Miras had severe traumas. «Our Kiyakty station is two hours away from the Moyinkum district center and the only hospital, which could provide qualified help. I'm afraid that we just could have been late...», - Yelena tells. Luckily, exactly on that day, there was a medical train arriving at the Kiyakty station. Yelena and her son were transported to the train. Doctors urgently received Miras, examined him and administered first aid. The ultrasound was done at the place and doctors said, that inner organs were damaged, urgent surgery was necessary. «Having stabilized my son's condition, they called an ambulance from the district center and sent us to the hospital. Local doctors there carried out a full examination and did a complicated liver surgery. My baby's life was saved», - the woman shares. At the present Miras feels good, he has been checked out of the hospital but keeps being supervised. «I wanted to thank all doctors, and especially professionals of «Zhardem» medical train. If not for them, I can't even imagine what the outcome would have been like. Thank you so much, I bow down to your professionalism», - Yelena concluded.

AN INDIVIDUAL FAMILY SUPPORT PLAN FOR PREPARING A CHILD TO AN ALTERNATIVE CARE IS DEVELOPED

THE ADAPTATION PROCESS OF 40 ORPHANS, CHILDREN WITHOUT PARENTAL SUPPORT, CHILDREN IN SUBSTITUTE FAMILIES IS BEING CONDUCTED

Miracles happen in common life, as well as in fairytales. It's just that we don't always notice them.

Could Antonina think, that SOS Child and Family Support Center of Temirtau Children's Village would change her life and the life of her close people?

Antonina is a young single mother. All the heritage her mother left for her before death is big debts and a two-room apartment, where Antonina lives with her sister. Despite the difficult life situation, the young woman didn't despair and tried to find the way. Therefore, she referred to the SOS Child and Family Support Center of Temirtau Children's Village. Not having a permanent job, Antonina was employed as a maintenance worker at the plant. The job was tough, but she was paid enough money to support a family. At the plant, she also met her love – a funny Alexander of neighboring team. At that moment, besides other psychological trainings Antonina attended courses of the «Strong parents – strong children» program, developing skills of responsible and conscious parenthood.

- Antonina, want some lemonade? – Alexander was smiling radiantly.
- I don't have time for that, I'm going to school!
- What school? Such a big girl and goes to school?
- You don't understand: in SOS village, I'm in the project. They taught us how to create a strong, healthy family and raise children right. So that everyone would be happy.
- Can you take me with you? I want it, - Alexander kept up and looked in Antonina's eyes questioningly. Having looked at him attentively, she laughed: «Let's go then! I think they will allow us!»

They did.

At all lessons Alexander and Antonina sat together, supported and helped each other. Sometimes they had an argument, because matters of raising children are very difficult. However joint learning and pastime brought them together. All participants of the school loved this pure, friendly and funny couple. Always together, they drank tea near each other during breaks and smiled on something of their own. They also received certificates together. Holding hands, they left the last lesson of the program together – on October 26.

And then on a bright day of December, glowing Antonina said that Alexander proposed her. Now she has a strong family, a reliable husband and a wonderful child! However, Antonina is not going to stop on what she has achieved. There is a new dream ahead – to become a certified nail-artist.

AILIN MOLDABEKOVA

Baby girl Ailin is only 2 years old, but in her short life she went through 6 surgeries. Her family calls her a tin soldier. From the moment she was born doctors kept saying to her parents: «Your daughter won't live more than half an hour». But parents' faith in miracle, their unconditional love for their daughter proved it wrong. Ailin was born with a congenital disorder of the anterior abdominal wall, therefore she had the most part of the small intestine and a half of the large intestine removed. Now Ailin has the short bowel syndrome, she has to be on the parenteral (intravenous) feed per 18 hours. When she was 6 months old, she was put a central line that helped her to receive nutrition. Everything was alright until the central line started to fail before the fifth planned hospital admission. It was replaced, but Ailin didn't give the chance to that one either.

The girl has been growing up, started to perceive the world and tried to get rid of everything on her way, that made her feel uncomfortable: mostly it was bandages. The baby girl also accidentally damaged the central line. It was decided to replace a common line with a subcutaneous port. But it also failed: due to malfunction of port, nutrition started to enter under skin, not into veins, which was extremely dangerous. The line was replaced again.

Sometime after that Ailin was urgently hospitalized in the Moscow Children's City Hospital due to the failure of port (the parenteral solution was flowing out of the injection site). Malfunctioning line was removed and the new port was put into the left internal jugular. The surgery went well, but it was difficult for the baby girl to wake up from anesthesia.

Now everything's well, she feels good, gains weight, enjoys life and plays with her sisters. Doctors carried out the correction of composition on regime of enteral and parenteral nutrition. Ailin is allowed to eat a minced meat.

«We continue necessary treatment, thanks for helping us! All our family is sincerely grateful to you for helping Ailin on her way to recover! God bless you and your family!» – Ailin's mother Romin shares.

Project Geography: Pavlodar, Shchuchinsk, Shymkent, Aktau, Nur-Sultan

Target audience: employees of «Samruk-Kazyna» JSC group of companies

The VI Spartakiad among the employees of «Samruk-Kazyna» JSC group of companies is aimed at developing a corporate culture and strengthening coherent relationships in labor collectives.

In 2019, more than 1,500 employees of the group of companies took part in Spartakiad.

The territorial qualifying competitions that took place in Aktau, Shchuchinsk, Shymkent and Pavlodar, identified the finalists who met at the super finals in the city of Nur-Sultan.

The VI Spartakiad took place in two stages. 4 territorial qualifying competitions - Northeast, South, Center, West and the super final in the city of Nur-Sultan.

1555 Employees participated

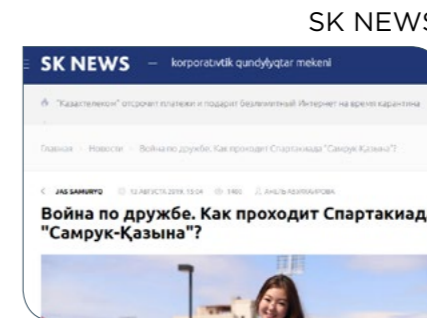

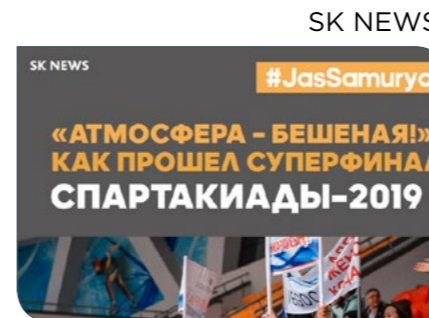

106 subsidiaries and affiliates

8 SPORTS
streetball, volleyball, futsal, chess, togyz-kumalak, e-sports, arm wrestling, table tennis

The carrying of such sports events contributes not only to promotion of healthy lifestyle, but also making new friends and networking with colleagues from different regions of the country. It helps to understand the structure of «Samruk-Kazyna» JSC as a whole, as well as it gives the opportunity for employees of remote regions to visit the regional center and the capital of our country. Moreover, they are able to contribute to the victory of their team and organization, to feel important, needful and equal, as we are all equal on the playing ground!

ASSET KLYSHBAYEV
Senior Manager
«Samruk-Kazyna Trust» Social Development Foundation

Irina Yershova works at «KEGOC» JSC. She takes part in sports and athletic contests among employees of «Samruk-Kazyna» State Corporation JSC since 2014. Irina is a five-time arm-wrestling champion among women in 65 kg weight category.

«When I first met my rivals, I was extremely nervous. I worried and thought about what it would be like? Because in this sport every man is for himself, there is no team spirit. I won't hide it, I had to lose weight, to be on a diet to my the winner», - Irina Yershova says.

Irina moved to this kind of sport accidentally. Her main sport was volleyball. But an athlete got a knee trauma and couldn't participate in a competition, it made her shift to arm-wrestling.

«The main thing during a competition is an attitude, an attitude for a fight, an attitude for victory. You should never underestimate your rivals, because doing so you can lose. I hope that further I will take part in contests with the same confidence and the same attitude and bring victory home», - an athlete shares.

SPORTFEST KAZAKHSTAN

«Fund of communicative initiative and strategies» PF Project

Geography: all regions of Kazakhstan

Target audience: 8-10th grade students of secondary schools

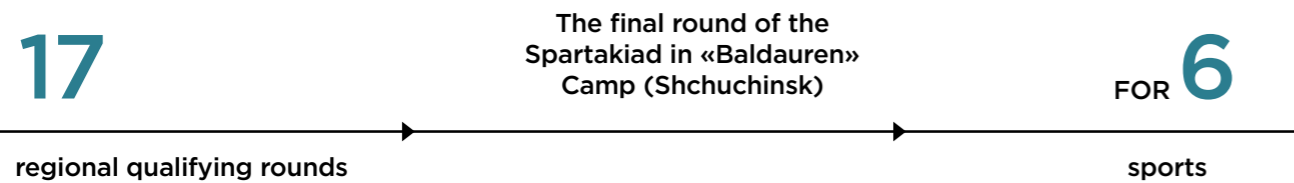

The republican school sports contest «SportFEST Kazakhstan» is a favorite sport event for thousands of schoolchildren from all over Kazakhstan. Its main goal is the development and promotion of a healthy lifestyle and mass sport among young people.

SportFEST Kazakhstan is a vivid example of how mass sport is developing in our country, cultivating an active generation, one of the priorities of which is a healthy lifestyle.

The Spartakiad is held in 2 stages: qualifying and final games. Selection takes place in regional centers, as well as in Nur-Sultan, Almaty and Shymkent.

In 2019, more than 7,000 schoolchildren became participants in the sports contest, and the best of them defended the honor of their regions in the famous Baldauren camp.

Sports equipment, which is used during the qualifying rounds, is donated to schools that have taken regional stages.

THANKS TO THE «SPORTFEST KAZAKHSTAN» PROJECT, FOR TWO YEARS OVER 14 THOUSAND SCHOOLCHILDREN GET THE OPPORTUNITY TO EXERCISE FAVORITE SPORTS. REPUBLICAN SCHOOL SPARTAKIAD IS, UNDOUBTEDLY, A PERFECT OPPORTUNITY TO MANIFESTATE MANY TALENTED AND SPORTS ENTHUSIASTIC CHILDREN. PARTICIPATION IN THE CONTEST IS NOT ONLY COMPETITION, BUT ABOVE ALL, A CHANCE FOR SCHOOLCHILDREN FROM ALL OVER THE COUNTRY TO MEET AND COMMUNICATE WITH EACH OTHER, AND MAKE NEW FRIENDS.

AIBEK KAZYGULOV
Representative of the SportFEST Kazakhstan project

Karina is engaged in basketball for three years. A girl tells that once she tried her hand in this sport, she liked it very much. Since the first basketball lesson, a series of daily practices, games, victories has started. Of course, there also were failures, but they only built the character and made her work on herself.

With every game Karina gained more confidence and had a chance to show her talent. Having taken part in all regional competitions among school students, she started dreaming about her team to achieve a Republican level.

Dreams come true: their coach found out about «SportFEST Kazakhstan» sports competition and applied for participation. Later their team went to Pavlodar for the elimination round among students from all over the region. Participants fought hard to get into the final round of the contest. The competition was strong, and the team could not allow themselves to make any mistakes on the way to the dream.

An extreme concentration, a coherent play, and ability to forecast moves of opponents gave their results: Karina's team took the first place in the elimination round of «SportFEST Kazakhstan». Girls were very happy – they made it to the final round!

«I would like as many teenagers as possible to participate in this contest, express their potential, talent, and achieve their goals! Thanks to «SportFEST Kazakhstan» I started to commit more time to sport. Despite my team didn't win in the final game, I was very glad to be a part of such sports holiday. Because my team and I met and befriended cool kids from all regions of Kazakhstan. And of course, we got a cool experience of performing on Republican competitions. For me, victory is my new friends and our new experience», - Karina shares.

X INTERNATIONAL VOCALISTS CONTEST OF BIBIGUL TULEGENOVA

«Miras» Public National Culture Fund» PF

Project Geography: Almaty

Target audience: creative young people of Kazakhstan, Russia, China, Ukraine, Bulgaria, Tajikistan, Azerbaijan, Mongolia and Italy

The International Vocalists Contest of Bibigul Tulegenova is an important event in the cultural life of Kazakhstan.

Nowadays, it has gained great popularity; talented youth from various countries of the world take part in it.

The contest has a great international importance, as the performance of Kazakh music serves to interpenetrate cultures, reveals the true beauty of the soul of Kazakh people and popularizes works of Kazakhstani composers.

«TOWARDS A DREAM» PROJECT

«BAURZHAN foundation» PF

Project Geography: Almaty

Target audience: orphans and children without parental support

The «Towards a Dream» project is aimed at stimulating and developing football talents among orphans and children without parental support, who in the future will be able to make a significant contribution to the development of Kazakhstani sports.

The Project Administrator promotes the further involvement of the tournament participants in sports: more than 150 children participated in various sports events, and after graduation they entered sports educational institutions and regional sports clubs.

12 TEAMS FROM 10 REGIONS OF KAZAKHSTAN

Took part in the Football Championship among children from orphanages and boarding schools in Almaty

I PLACE – TULPAR team from the Children Support Center, Zhambyl region;

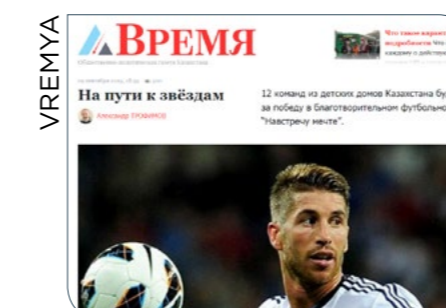

II PLACE – BERKUT team from the Rudny orphanage, Kostanay region;

III PLACE – ARYSTAN team from the Akkol Orphanage No. 1, Akmola region.

THE TOP PRIZE FOR THE WINNING TEAM IS TRIP TO MADRID

The trip included a cultural program and sightseeing:

- Santiago Bernabeu Stadium
- Real Madrid Club Museum;
- Embassy of the Republic of Kazakhstan in Spain;
- Warner Brothers Park;
- historical part of the city.

Anatoly, the younger son of the Litvinovs, he was born on July 11, 2006, in Merke village of Zhambyl region. He entered the K.Sarymoldayev Orphanage in 2015. He has two sisters who graduated from the same Orphanage, where Anatoly currently is. Both sisters live in Almaty, the younger one studies in the university, the elder sister has already graduated from the university and nowadays works.

Anatoly is a sociable, calm and benevolent boy. In his spare time, he practices football. He attends sport section of football in Support Center for Children in a difficult situation in Zhambyl region. He takes an active part in the social life of the Center, especially in sports events. He maintains friendly relationships with children, doesn't conflict with anyone. Anatoly is a very diligent and responsible boy, who always tries to follow through.

In September 2019, he took part in VII Football Championship of the Republic of Kazakhstan between orphanages and boarding schools, which took part in Almaty. Among 12 teams the «Tulpar» team, where Anatoly played, took the I place and won the trip to Spain. In November 2019 football players of «Tulpar» visited the Real Madrid FC and the famous Santiago Bernabeu Stadium.

When they got back, Anatoly was invited to play football on the professional basis in the junior league of «Taraz» FC. Today, he plays for this club.

Anatoly is sincerely grateful to the Championship organizers. In the future, he wants to become a famous football player of the country and even the world.

«My goal is to achieve as much as possible. I want to learn all football techniques and tactics. To cultivate mental and strong-willed qualities. To develop my strength, speed, resilience and flexibility. In future, I want to join the eminent team – «Kairat», to become a master of sports and a football coach», - Anatoly Litvinov shares his goals with us.

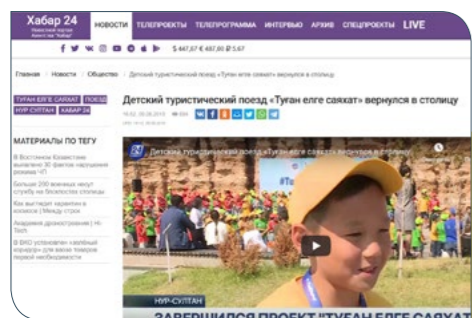

TUGAN ELGE SAYAKHAT

«Social Projects Fund» CF

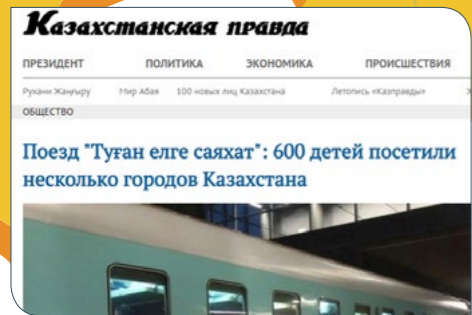

Project Geography: Nur-Sultan, Baikonur, Taraz, Almaty, Balkhash

Target audience: children aged 11-15 and children from the Kazakh diaspora of foreign countries

Under the scope of the project, children visited the most beautiful sights of Kazakhstan and learned a lot of new and interesting facts about their homeland. During the trip, an educational and entertaining program was organized for the participants.

CHILDREN

CHILDREN FROM REMOTE REGIONS OF THE COUNTRY

WINNERS OF THE CREATIVE COMPETITION

CHILDREN FROM THE KAZAKH DIASPORA OF FOREIGN COUNTRIES

My name is Aubakirov Yerzhan, I was born and raised in Omsk, Russia. This summer I was lucky to get into the «Tugan Elge Sayakhat» project, visit my historical homeland and see sacred places of Kazakhstan. The camp gave me very bright impressions, charged me with positive emotions. I never knew about such cities as Taraz and Balkhash, let alone being there. It was a new big discovery for me.

I met an ancient culture of my nation in Taraz, saw snowy ranges in Almaty, found out about advanced technologies in Nur-Sultan. And for the first time in my life, I swam in waters of my historical homeland – the Balkhash lake.

I have warm memories of the camp, because it was incredible, enlightening, funny, interesting, kind...

From the first day of the camp, I befriended many kids, we still keep in touch. Having returned from the camp I became even more interested in our culture and traditions. Having returned to Omsk, first of all, I signed up for Kazakh language courses into the «Ana tili» Club of Lovers of Kazakh language and started to work as a volunteer in projects of «Kazakh People of Omsk» Social Organization.

Every time and everywhere I advised other people to follow my example and take part in the «Tugan Elge Sayakhat» project, because these 10 days in the camp became one of the happiest periods of my life and I wanted to share it.

Once I finish school and university, I want to return to Kazakhstan as a jurisprudence specialist and work in my homeland.

WORLD TEAM CHESS CHAMPIONSHIP AMONG MEN AND WOMEN

«KAZAKHSTAN CHESS FEDERATION» RPA

Project Geography: Nur-Sultan

Target audience: chess players of the Republic of Kazakhstan and other countries

The project is aimed at promoting Kazakhstan in the international sports arena, developing chess and achieving world level by Kazakhstani chess players. On March 4-14, the Team World Chess Championship for men and women was held with the participation of the President of the International Chess Federation (FIDE).

The landmark event was attended by 32 representatives of FIDE, the Minister of Culture and Sports of the Republic of Kazakhstan.

After the tournament, the Project Administrator donated about 25 types of office machines and equipment purchased as part of the World Chess Team Championship to orphanages and schools for children with special needs.

WE VISITED «28 PETEL» PUBLIC FOUNDATION, WHERE WE KNITTED ABOUT 20 PAIRS OF WOOL SOCKS FOR PREMATURE BABIES, WEIGHING ONLY 500 GRAMS

ALL FINALISTS PARTICIPATED IN THE INTERNATIONAL AND ANNUAL «DONOR'S DAY» CAMPAIGN, BECOMING BLOOD DONORS.

«I will remember the Miss Astana contest for ever. I have met interesting people, and I am sure that we will keep in touch with the project participants. But the most unforgettable thing for me was the participation in the «Beauty is in Mercy» social project. We took the children from Astana Children's Village to the premiere at the cinema: it was invaluable to me to see their bright eyes. In cooperation with the students of the correctional school, we organized and conducted a session of art therapy. The children discovered a lot of new things and got wonderful emotions. I am very glad that the girls and I were able to give that joy to the children.

One of the most interesting activities was knitting woolens for premature babies. This is a very valuable experience for me. Thanks to the contest, another important event happened in my life - I became a blood donor for the first time. It is important for me to realize that I can save someone's life. I will definitely continue to do something good, help those in need, and be a volunteer in organizations. I urge everyone to expose themselves to the needs of others, be kind and attentive. After all, the Charity will save the World!»

«SAMRUK-KAZYNA TRUST» SOCIAL DEVELOPMENT FOUNDATION IN THE MEDIA FIELD

«SAMRUK-KAZYNA TRUST» Social Development Foundation is actively working to implement charity activities and to tell about its projects in large national and regional media, as well as on the official pages of the Foundation in social networks.

WEB-SITE OF «SAMRUK-KAZYNA TRUST» SOCIAL DEVELOPMENT FOUNDATION

Moreover, the creative team of «Samruk-Kazyna Trust» Social Development Foundation is working on development of the web-site, constantly replenishing it with useful content.

«It is useful» section reveals materials on working tools at social networks, projects, etc.

The Poster of Good Deeds is updated and supplemented by interesting events affecting the sphere of non-profit organizations, social entrepreneurship and charity.

Message of Director of the Corporate Communications Department - Official representative of «Samruk-Kazyna Trus» Social Development Foundation

MIRAS IRGEBAYEV

Dear friends!

I am glad to welcome you on the pages of our next Annual Report!

During my work at «Samruk-Kazyna Trust» Social Development Foundation, I met a huge number of journalists, editors, bloggers with whom I have been in touch to this day. I am happy that they relate to our aspirations and undertakings, which they gladly cover on their TV and radio channels, information sites, on the pages of newspapers and magazines, in their posts on social networks. Each journalist for us is a partner and like-minded individual!

It is very important to tell our community about what kind of help they can get thanks to the activities of our organization - this is a chance to find work, strengthen health, help your child and even find like-minded people. Indeed, the media is the most accessible way to spread information.

We cooperate with such leaders of Kazakhstan's media space as the Khabar, Khabar 24, Qazaqstan TV channels, Kazakhstanskaya Pravda, Egemen Kazakhstan newspapers, Tengrinews.kz, Zakon.kz, BAQ.kz information resources and others.

All materials published about us in the media field are published free of charge. This is the main principle that we adhere to.

All funds of «Samruk-Kazyna Trust» Social Development Foundation are used to help the people of Kazakhstan and the funds that we could send to footage or publication can save some-

one's life. For sure, we choose life!

Working with the press, we use various tools - both classical and creative. We hold press conferences, press tours, arrange meetings where journalists can freely communicate with our project beneficiaries and independently verify the impact of our projects.

We always hand on and try to be aware of the latest news trends. So the idea of creating the «Poster of Good Deeds» on our website was born. Here you can find events covering the topics of charity and enlightenment of non-profit organizations around the world.

By means of this calendar, many non-profit organizations learn about useful events and take part. Thus, the grantee of the «ӘREKET» project, «Belsen» Center for Social Initiatives» PA, has learned about «SAP UP» social startup competition from the «Poster of Good Deeds», took part in it and won the 3rd place among participants from all over the CIS countries. These are the examples that inspire and encourage us to use creative, non-standard forms of communication.

Moreover, we strictly follow the rules - to be prompt, open and honest. As a result, only in 2019 about 1,700 materials were published in the media about «Samruk-Kazyna Trust» Social Development Foundation, which means that thousands of people are aware of our projects and know who to ask for help.

THE WORLD #ITSALLABOUTABILITY CAMPAIGN LAUNCHED IN KAZAKHSTAN, IN ASSOCIATION WITH UNICEF, IS AIMED AT PROTECTION OF THE RIGHTS OF CHILDREN WITH SPECIAL NEEDS AND DEVELOP AN INCLUSIVE SOCIETY.

Self-government day #KIDSTAKEOVER, #DETI-URULA with the participation of children from various projects, where they were able to stay for several hours as managers and CEOs of companies.

The campaign at the football match of the final game of the Kazakhstan Football Championship in 2019 - children with special needs and youth league players took the players to the arena before the Astana-Irtysh match.

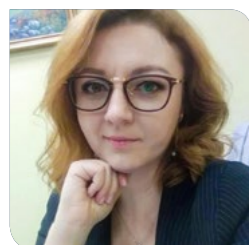

MEETUP «POSTER PF GOOD DEEDS» TOPICS: «PROMOTION OF SOCIAL PROJECTS ON THE INTERNET» AND «SCOPE OF SUCCESSFUL FUNDRAISING FOR NPOS»

Speakers: well-known Russian expert in the field of fundraising - Olesia Radilova and Kazakhstani blogger and media trainer Yakov Fedorov.
Participants: more than 60 representatives of non-profit organizations of the capital

JOURNALISTS AND BLOGGERS ABOUT «SAMRUK-KAZYNA TRUST» SOCIAL DEVELOPMENT FOUNDATION

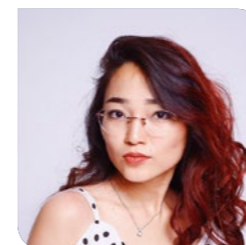

LYUBOV VOCTRUKHINA
Chief Editor
«Zakon.kz» Internet portal

«Nowadays, success of a project depends on the PR team work in the media space. It is important to show what results have been achieved, what was done for it, how the company can be useful to the public. This affects on the perception on your work by your audience, impact on it and your reputation forming-up. I am very impressed with the approach of «Samruk-Kazyna Trust» PR team. Using the most modern and creative tools, they try to convey information to people that they have the opportunity to participate in the Foundation projects, tell where and how to get help, what benefits can be used. They are professional, they love their work, but the most important thing is their desire to help people who find themselves in a difficult situation. In turn, we, as partners, are happy to support them on our site».

AINUR SAMEDOVA
Chief Editor
Kazpravda.kz

«We started our cooperation with «Samruk-Kazyna Trust» Foundation recently. However, they have already managed to implement a number of joint projects. Nowadays, it is difficult to overestimate the importance of implementing social projects. Our vision of social support coincides with the Foundation's concept of work, and we are always enthusiastically responding to a request for their coverage. Separately, I would like to note the creativity and cohesion of the Foundation team, their approach to the work and implementation of projects. We are looking forward to the cooperation in the future that will result in new peculiar important media products».

KARAKOZ KENZHEBAYEVA
Journalist
Khabar 24 Channel

«The development and support of social projects are top issues in our country. I know that «Samruk-Kazyna Trust» is one of the largest funds, which conducts its activities in various areas, including providing and giving an unparalleled opportunity for development of social projects throughout Kazakhstan. Special thanks to the PR department of the Foundation, which tirelessly generates informational events, provides speakers, gives us, journalists, interesting stories for footage. Thanks to their activity, we can inform Kazakhstan people about charity help, which sometimes saves lives».

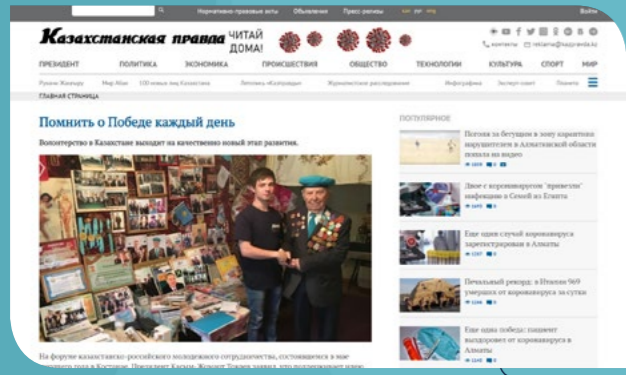

YAKOV FEDOROV
Blogger

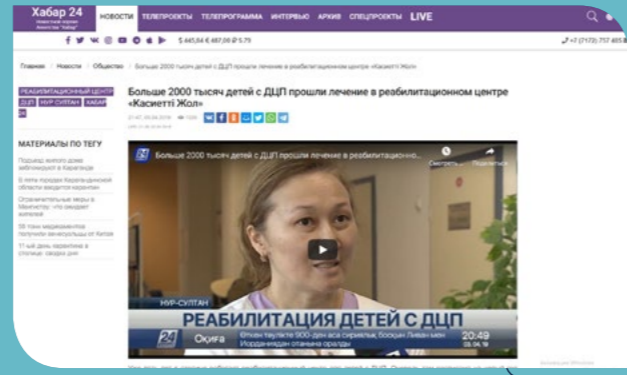

«All the projects of «Samruk Kazyna Trust» Foundation are united by one quality - the high passionarity of their participants. When I held a seminar for «Samruk Kazyna Trust» partners last year, I was favorably impressed that there are so many people in the country who are ready to work in the best interests of the society in completely different directions. Sometimes we don't even think about some problems that are solved by such organizations, because not every one will ever face it. Nevertheless, it is important to realize that there are lives of people behind each decision».
